Risk Profile

Investment policy

Flexible investment style. The investment objective aims at delivering positive returns through a diversified asset allocation. Anthilia Blue combines a macro view – investing in government bonds, equity index futures, ETFs – with a fundamentally-based stock selection, mainly in the European equity area. Eligible stocks are mainly large Cap. Fixed income investments are selected among governmental and supranational issuers only, with a minimum rating of investment grade. The fund may invest maximum 10% of its NAV in third party UCITS. Currency exposure can be hedged upon Fund Manager market view. Corporate bonds, credit derivatives, covered warrants, asset backed securities (ABS) and OTC derivatives are excluded from the investment universe. The fund may invest in listed financial derivatives for: hedging risk, managing portfolio efficiently, investing purposes. Global risk exposure attributable to financial derivatives cannot exceed 100% of the fund net asset value. Investment approach and strict risk management discipline guarantee maximum liquidity of portfolio holdings on a daily basis. Andrea Cuturi, Fund Manager, holds a longstanding international experience in financial investments.
